Matters Arising

Note received from Secretary regarding Under 14 Gala Wilton v Hardwicke. Note unclear to be dealt with at next meeting on return of Secretary.

Correspondence

Correspondence received from Slimbridge regarding an alleged illegal approach from another team to one of their players. Rules regarding such an approach are not specifically covered in our rules but Slimbridge were advised by the Secretary that all such allegations should be reported to the Gloucestershire FA as our parent body.

The Registration Secretary reported that a properly completed transfer form had been received for the particular player and had been correctly signed by all parties.

Fixture Secretary

Number of matches played had suffered due to bad weather.

Correspondence received from Rodborough suggesting/requesting a relaxation of the rules regarding postponement of fixtures in the Under 16 Division due to the small number of teams involved and the difficulty in getting players organised.

After some discussion it was agreed that the Committee could NOT agree to such a relaxation of the rules. The Rules of the League apply to all Clubs and games played under the jurisdiction of the League and to grant such a relaxation could set a precedence.

Referees Secretary

The vast majority of games are still being covered.

Apologies for the couple of times when referees have not turned up, but I have not been informed of their unavailability either. Please be assured that Clubs WILL be informed if a official becomes unavailable and I am unable to find a replacement.

Child Welfare

Taking of Photographs/Filming at Games

Due to a couple of recent incidents Clubs are reminded that whilst the above is not illegal is it sensible in the current climate for the person undertaking such activity to approach officials of both Clubs and the referee advising them of their intent and seeking their approval before undertaking any such activity. This is to safeguard ALL concerned. If any concerns or doubts are expressed then this activity should NOT take place.
